Report Number : 2.3-4.10/26/50

STATEMENT OF NON-COMPLIANCE WITH GDP

Exchange of information between National Competent Authorities (NCAs) of the EEA following the discovery of serious GDP non-compliance at a wholesale distributor

Part 1

Issued following an inspection in accordance with Article 99 (6) of Regulation (EU) 2019/6

The competent authority of Latvia confirms the following:

The wholesale distributor (WDA): Baltu Veterinarija AS

Authorisation number : VZL-058374/3

Site address: Rupniecibas Iela 39, Jelgava, 3008

OMS Identifiers: (ORG-100040494 / LOC-100066498)

Scope of certificate: Veterinary medicinal products

From the knowledge gained during inspection of this wholesale distributor, the latest of which was conducted on 2026-03-25, it is considered that **it does not comply with the Good Distribution Practice** requirements laid down in Article 99 (6) of Regulation (EU) 2019/6.

Part 2

Wholesale distribution activity affected : WDA No. VZL-058374/3 is suspended. During the suspension period, the wholesale distributor is not authorised to perform wholesale distribution operations.

Part 3

1. Nature of non-compliance: During an initial inspection carried out as part of the GDP compliance assessment, several deficiencies were identified and documented in the inspection report, including three major deficiencies. Following the inspection, the Company submitted a Corrective and Preventive Action Plan, which was approved by the Competent Authority. However, the Company failed to rectify the identified deficiencies, including the three major deficiencies, within the stipulated timeframes and has not remedied them to date. Consequently, the Competent Authority concluded that the Company does not comply with the requirements laid down in the GDP Regulation and has therefore refused to issue the GDP certificate.

2. Action taken/proposed by the NCA: Suspension of veterinary medicinal product distribution.

3. Additional comments: The identified non-compliances do not affect the safety, quality, or integrity of the veterinary medicinal products handled by the wholesaler, and no risk to public or animal health has been identified as a result of these non-compliances.
